Thomas B. Edmunds,

Optometrist

With office at 617, Main Street in Lynchburg, is prepared to serve your eyes the scientific examination and attention they demand.

A service depending for success upon technical accuracy, where so important a thing as eyesight is concerned should be conducted by a qualified optometrist who has made a special study of the eye.

There is no one in this section who has made a deeper study or is better equipped to serve you than Dr. Edmunds. Expert knowledge and efficiency has caused this optometrist to gain an enviable reputation throughout this section and build for him a large clientele.

You cannot be too careful with your eyes. Very frequently eye trouble starts from the slightest defect. If you are having any trouble with your eyes, it will pay you to consult him for an examination, it may save you much future trouble in years to come.

Dr. Edmunds makes each case one for study, can fit you with lense the correct power for your individual needs. Those of our readers who are in need of service of the above character should avail themselves of the service at his parlors and at all times we can assure you of reliable work. His practice is by no means confined to the city, but extends throughout this and adjoining counties, and he is glad at all times to have the people from the rural districts visit his office.

Your eyes are the most delicate organs and should receive the correct attention they deserve.

We wish to direct the attention of our readers to Dr. Edmunds when your eyes require help. He has justly merited the reputation gained and is ready at all times to give you any information you may desire that is in the providence of the eye.

REAL ESTATE SALES

There is right much trading in farm land going on among our own people. Hon. Jno. W. Williams and N. R. Featherstone have purchased the Ed. McGinnis farm at Rose Bower of 319 acres.

W. H. Lowe has purchased of A. H. Clement and J. N. Woolridge the Opem farm and orchard, south of town, of 70 acres; Willie Woodson purchased Saturday the Nelson Bocock farm, of 175 acres; E. A. Covington has purchased the C. S. Cawthorn farm, of 400 acres; Leon Powell, 100 acres of the J. M. Knott farm at Chop; C. R. Blunt has acquired the holdings of W. D. Browning at old C. H.; Kemper Harris has bought the Willis Patterson place near Oakville; Phil Paulett and Curtis Harvey have bought the Ed. Harvey farm of 314 acres, on Cole Creek; Warren S. Corring bought the J. W. Cawthorn tract 155 acres, on Appomattox river; Lynchburg Land & Loan Corp., 72 acres of R. H. Wright, near Glenfall; the S. W. Harvey place near Red House of 254 acres to Jno. T. Hunter.

Many of our home seekers have been delaying the matter of purchasing farms for some years, but with fair prices for dark fire cured tobacco and the very low prices obtaining for our good farm land, much activity and interest is being manifested by these buyers—It is certainly true that no better time could be hoped for to "own your own home" than the present.

Our lands offer great opportunities for those who have funds to invest or those who are seeking homes—Now is a good time to buy.

GROWERS TO ORGANIZE

A meeting of the delegates appointed to attend the Farmville meeting last Saturday of the dark fired tobacco growers to consider the co-op. contract and other matters was well attended. Although Amherst and Nelson Counties were not represented at the meeting it is hoped that these splended tobacco counties will join in the effort to organize the growers. Organization plans and the contract and other details were considered and a drive for members will be put on later in the summer to get a sign up to see if sufficient tobacco can be pledged to justify the farmers in organizing.

BEAUTIFUL CHARLOTTE

A pleasant drive over southside of Appomattox and through the northside of Charlotte County this week revealed a striking contrast of the methods employed by the farmers in Charlotte County to those of southside Appomattox. The Charlotte farmers have pretty homes, well kept farms, with neat stacked about on the farms and luxurient clovers growing over terraced farms.

There is no section of Virginia which can present a more pleasing prospect to the traveler than this properous section of old Charlotte, and Appomattox will be glad when the proposed Estate highway thru James river through the town of Appomattox connects with route 20 at Phenix which passes this great agricultural section of Virginia.

Dempsey to Fight Lions. The Big Bank Arrives. Don't Make Yourself Sick. Women Always Pioneers.

Our newly discovered planet neighbor, circling around the sun far out beyond Neptune, is the most interesting news item.

We are only a little more than 90,000,000 miles from the sun. This new planet, about the size of our earth, is 1,335,000,000 miles from the sun.

Multiply that by six and you will know, approximately, the length of the far-off planet's journey around the sun.

On that planet, one lives 3,200 earth years to be a year old.

To see the new neighbor, look now. It will be visible with earth's telescopes only about a hundred years longer, and then be hidden for 3,000 years, while it finishes one of its own years.

Jack Dempsey, once heavyweight champion, will go to Africa to kill lions, elephants, giraffes, hippopotamuses and rhinoceroses. On one of his "safaris," that the British call a hunting expedition, Mr. Dempsey thinks he may pick out a colored heavyweight.

Plenty of Zulus could fill Madison Square Garden. The difficulty would be to make them endure prosperity and bootleg products after they got here.

If Mr. Dempsey should meet one of the big red-haired, eight-foot-tall gorillas of the Gaboon country, he'd be surprised.

That kind of heavyweight could stroll along dragging Dempsey with one hand, Carnera with the other.

Money is international. Its power, and respect for it, are international. Now, along lines of government by high finance, comes an international bank.

Gates W. McGarrah was chosen head of the Pierre Quesney, marvellously able French financier, only 35, was chosen general manager.

Mr. McGarrah is considered one of the ablest financiers in the United States.

Pierre Quesney represents the acute financial intelligence of the French, illustrated in the fact that, so soon after a gigantic war, they have a billion dollars in gold to the credit of France in this country.

What the big bank will be, time will tell.

Andrew Jackson is interested in it, if he still keeps track of earthly matters.

The intelligent people of this country are grateful to President Hoover for his constant warnings against Congressional extravagance. In dignified Presidential language he says what David Warfield said to Lillian Russell in the Weber and Fields days.

Warfield, in the play, meets Lillian Russell in Paris, invites her to supper and says: "Go as far as you like." Beautiful Lillian orders 10 or 15 different dishes. Then Warfield says: "Missa, because it don't cost you nothing, don't make yourself sick."

It doesn't cost Congress anything to spend billions, taken from the people, but if Congress goes too far it will make the country sick.

Prosperity will not boom if you pervade the man with money that it is better to invest in tax-exempt securities than in enterprises giving employment. That will happen if government reaches in and takes too much from incomes.

Oklahoma unveils a fine statue to the pioneer woman. Women have always been earth's real pioneers, in ideas and in action.

Far back in the Stone Age they had produced all the grains we know, by developing the seeds of wild plants.

They tamed female buffalos to provide milk for their children, planted gardens, changed human beings from a nomadic to a settled life.

They are pioneers of the frontiers and pioneers in ideas and in religion.

The influence of mothers on their sons in the last million years has changed men from prognathous cannibals to semi-civilized money-grubbers.

William Manck, 48 years a letter carrier, absent only one week in 48 years, retires. His superiors shake hands with him and are photographed doing it. That's kind, but Uncle Sam might do more.

He might give William Manck and other faithful servants of the post-office a generous pension on which they could live comfortably when their hard work is done.

And without waiting for them to be worn out he might give them generous pay.

The richest employer in the world should be at least just.

The "Last Man's Club" of Atwater, Minnesota, has buried its last but one member. Charles Lockwood, 87, accompanied to the grave the body of his friend Peter Hall, who died at ninety-one. Now Lockwood is the last. When he goes, the club will end.

The Georgia-Carolina School of Commerce, with general offices and permanent school in Brunswick, Ga., also permanent schools in Rocky-Mount, N. C., Goldsboro, N. C., and Danville, Va., will open another term of school in Appomattox just as soon as a sufficient number can be enrolled for a standard Stenographic, Commercial or Secretarial course either in the day or night school.

Standard courses of study will be offered in the Appomattox school both day and night. The school will be taught by a certified Instructor from the home office. The following courses will be offered both day and night:
